

TIERCE

Even number of players form a double circle. An ODD person stands outside one pair. THE DEVIL pursues them. ODD person darts in front of another pair and the rear person of that pair now becomes the ODD person and runs. As soon as the DEVIL touches a runner, he (the DEVIL) stands in front of a pair, thus setting off another runner, and the tagged player becomes the DEVIL.

FOUR GOAL SOCCER

The Troop is divided into four teams. Four goals arranged at points of cross. The object, by playing normal soccer rules (except for offside), is to score as many goals as possible in any goal except your own. Winners are the team with the fewest goals against them.

CHINESE TUG OF WAR

Two players (opponents) stand back to back, bow politely to space and grasp right hands between their legs. In this ludicrous position, each tries to pull the other to the opposite wall.

DEFEND THE SKITTLE

You need a basketball or similar and a skittle or similar. Troop in a circle around the skittle. One Scout has to defend the skittle. Ball can be passed freely around the circle and the Scout that knocks over the skittle gets the job of defending it. The defender can stop the ball any way with the body.
